Toxicology 97 (1995) 239–242

TOXICOLOGY

Subject index

Volume 97 (1995)

Adjuvant arthritis; Gold sodium thiomalate; Renal damage; Chelate effect **97**, 151

β-Adrenergic receptor; Parathion; Pineal gland; Indolamines; Melatonin; *N*-Acetyltransferase activity **97**, 183

Amoxicillin; Monoclonal antibodies; Epitopes; Penicillin allergy **97**, 225

Antibiotic resistances; Dental amalgam; Inorganic mercury; Central nervous system **97**, 19

Atropine; Cardiotoxicity; Electrocardiography; Emetine; Fructose-1,6-bisphosphate; ICRF-187; In vitro; Lactate dehydrogenase; Perfused rat heart **97**, 93

Autoantigen; Lipoic acid; Hepatitis; Halothane; Molecular mimicry; Dihydrolipoamide acetyltransferase **97**, 199

BHT; Protein kinase C; Calpain **97**, 141

Bone resorption; Lead; Prostaglandin E_2; Osteoclast; Calcitonin; Hydroxyproline **97**, 191

Calcitonin; Lead; Bone resorption; Prostaglandin E_2; Osteoclast; Hydroxyproline **97**, 191

Calcium channels; Heavy metals; Lead poisoning; DHP-receptors; Neurotoxicity; ^{3}H-PN200-110 **97**, 113

Calpain; Protein kinase C; BHT **97**, 141

Carbon tetrachloride; Methamphetamine; Hepatotoxicity **97**, 49

Cardiotoxicity; Atropine; Electrocardiography; Emetine; Fructose-1,6-bisphosphate; ICRF-187; In vitro; Lactate dehydrogenase; Perfused rat heart **97**, 93

Central nervous system; Dental amalgam; Inorganic mercury; Antibiotic resistances **97**, 19

CFU-C; Trifluoromethylaniline derivatives; Methaemoglobinemia; Neutrophilia; Lymphocytosis **97**, 123

Chelate effect; Gold sodium thiomalate; Renal damage; Adjuvant arthritis **97**, 151

Copper; LEC rat; Wilson disease; Metallothionein; Copper toxicity; Hepatitis; HPLC-ICP; Iron **97**, 81

Copper toxicity; Copper; LEC rat; Wilson disease; Metallothionein; Hepatitis; HPLC-ICP; Iron **97**, 81

Corticosterone; Lymphocyte; 2,3,7,8-Tetrachlorodibenzo-*p*-dioxin **97**, 105

Dental amalgam; DMSA; DMPS; Heavy metal antidotes; Mercury antidote; Dimaval; Succimer; Dental personnel; Mercury exposure **97**, 23

Dental amalgam; Inorganic mercury; Central nervous system; Antibiotic resistances **97**, 19

Dental personnel; DMSA; DMPS; Heavy metal antidotes; Dental amalgam; Mercury antidote; Dimaval; Succimer; Mercury exposure **97**, 23

Developmental toxicity; Methanol; Embryo culture **97**, 159

DHP-receptors; Heavy metals; Lead poisoning; Calcium channels; Neurotoxicity; ^{3}H-PN200-110 **97**, 113

Dichloroacetate; Trichloroacetate; Peroxisome proliferators; Lipid peroxidation **97**, 59

Dihydrolipoamide acetyltransferase; Lipoic acid; Hepatitis; Autoantigen; Halothane; Molecular mimicry **97**, 199

Dimaval; DMSA; DMPS; Heavy metal antidotes; Dental amalgam; Mercury antidote; Succimer; Dental personnel; Mercury exposure **97**, 23

Elsevier Science Ireland Ltd.

DMPS; DMSA; Heavy metal antidotes; Dental amalgam; Mercury antidote; Dimaval; Succimer; Dental personnel; Mercury exposure **97**, 23

DMSA; DMPS; Heavy metal antidotes; Dental amalgam; Mercury antidote; Dimaval; Succimer; Dental personnel; Mercury exposure **97**, 23

Dopaminergic; L-DOPA; Monoamine; Luteinizing hormone; Prolactin; Testosterone **97**, 173

Electrocardiography; Atropine; Cardiotoxicity; Emetine; Fructose-1,6-bisphosphate; ICRF-187; In vitro; Lactate dehydrogenase; Perfused rat heart **97**, 93

Embryo culture; Methanol; Developmental toxicity **97**, 159

Emetine; Atropine; Cardiotoxicity; Electrocardiography; Fructose-1,6-bisphosphate; ICRF-187; In vitro; Lactate dehydrogenase; Perfused rat heart **97**, 93

Epitopes; Amoxicillin; Monoclonal antibodies; Penicillin allergy **97**, 225

EROD; TCDD; Subchronic toxicity; PEPCK; TdO; Tryptophan; Serum TT4 **97**, 133

Fructose-1,6-bisphosphate; Atropine; Cardiotoxicity; Electrocardiography; Emetine; ICRF-187; In vitro; Lactate dehydrogenase; Perfused rat heart **97**, 93

Gold sodium thiomalate; Renal damage; Adjuvant arthritis; Chelate effect **97**, 151

^{3}H-PN200-110; Heavy metals; Lead poisoning; DHP-receptors; Calcium channels; Neurotoxicity **97**, 113

Halothane; Lipoic acid; Hepatitis; Autoantigen; Molecular mimicry; Dihydrolipoamide acetyltransferase **97**, 199

Heavy metal antidotes; DMSA; DMPS; Dental amalgam; Mercury antidote; Dimaval; Succimer; Dental personnel; Mercury exposure **97**, 23

Heavy metals; Lead poisoning; DHP-receptors; Calcium channels; Neurotoxicity; ^{3}H-PN200-110 **97**, 113

Heavy metals; Parkinson's disease; Iron; Manganese; Movement disorders **97**, 3

Hepatitis; Copper; LEC rat; Wilson disease; Metallothionein; Copper toxicity; HPLC-ICP; Iron **97**, 81

Hepatitis; Lipoic acid; Autoantigen; Halothane; Molecular mimicry; Dihydrolipoamide acetyltransferase **97**, 199

Hepatotoxicity; Carbon tetrachloride; Methamphetamine **97**, 49

HPLC-ICP; Copper; LEC rat; Wilson disease; Metallothionein; Copper toxicity; Hepatitis; Iron **97**, 81

Human immune cells; Nickel salts; Nickel immunotoxicity; Immunophenotype; Natural killer cells **97**, 39

Hydroxyproline; Lead; Bone resorption; Prostaglandin E_2; Osteoclast; Calcitonin **97**, 191

ICRF-187; Atropine; Cardiotoxicity; Electrocardiography; Emetine; Fructose-1,6-bisphosphate; In vitro; Lactate dehydrogenase; Perfused rat heart **97**, 93

Immunophenotype; Nickel salts; Nickel immunotoxicity; Human immune cells; Natural killer cells **97**, 39

In vitro; Atropine; Cardiotoxicity; Electrocardiography; Emetine; Fructose-1,6-bisphosphate; ICRF-187; Lactate dehydrogenase; Perfused rat heart **97**, 93

Indolamines; Parathion; Pineal gland; Melatonin; *N*-Acetyltransferase activity; β-Adrenergic receptor **97**, 183

Inorganic mercury; Dental amalgam; Central nervous system; Antibiotic resistances **97**, 19

Iron; Copper; LEC rat; Wilson disease; Metallothionein; Copper toxicity; Hepatitis; HPLC-ICP **97**, 81

Iron; Parkinson's disease; Heavy metals; Manganese; Movement disorders **97**, 3

L-DOPA; Dopaminergic; Monoamine; Luteinizing hormone; Prolactin; Testosterone **97**, 173

Lactate dehydrogenase; Atropine; Cardiotoxicity; Electrocardiography; Emetine; Fructose-1,6-bisphosphate; ICRF-187; In vitro; Perfused rat heart **97**, 93

Lead; Bone resorption; Prostaglandin E_2; Osteoclast; Calcitonin; Hydroxyproline **97**, 191

Lead; Young children; Neurobehavioral-cognitive performance **97**, 11

Lead poisoning; Heavy metals; DHP-receptors; Calcium channels; Neurotoxicity; ^{3}H-PN200-110 **97**, 113

LEC rat; Copper; Wilson disease; Metallothionein; Copper toxicity; Hepatitis; HPLC-ICP; Iron **97**, 81

Lipid peroxidation; Trichloroacetate; Dichloroacetate; Peroxisome proliferators **97**, 59

Lipoic acid; Hepatitis; Autoantigen; Halothane; Molecular mimicry; Dihydrolipoamide acetyltransferase **97**, 199

Luteinizing hormone; L-DOPA; Dopaminergic; Monoamine; Prolactin; Testosterone **97**, 173

Lymphocyte; 2,3,7,8-Tetrachlorodibenzo-*p*-dioxin; Corticosterone **97**, 105

Lymphocytosis; Trifluoromethylaniline derivatives; Methaemoglobinemia; CFU-C; Neutrophilia **97**, 123

Manganese; Parkinson's disease; Heavy metals; Iron; Movement disorders **97**, 3

Melatonin; Parathion; Pineal gland; Indolamines; *N*-Acetyltransferase activity; β-Adrenergic receptor **97**, 183

Mercury antidote; DMSA; DMPS; Heavy metal antidotes; Dental amalgam; Dimaval; Succimer; Dental personnel; Mercury exposure **97**, 23

Mercury exposure; DMSA; DMPS; Heavy metal antidotes; Dental amalgam; Mercury antidote; Dimaval; Succimer; Dental personnel **97**, 23

Metal absorption; Metallothionein; Nutritional deficiency **97**, 71

Metallothionein; Copper; LEC rat; Wilson disease; Copper toxicity; Hepatitis; HPLC-ICP; Iron **97**, 81

Metallothionein; Metal absorption; Nutritional deficiency **97**, 71

Methaemoglobinemia; Trifluoromethylaniline derivatives; CFU-C; Neutrophilia; Lymphocytosis **97**, 123

Methamphetamine; Carbon tetrachloride; Hepatotoxicity **97**, 49

Methanol; Developmental toxicity; Embryo culture **97**, 159

Molecular mimicry; Lipoic acid; Hepatitis; Autoantigen; Halothane; Dihydrolipoamide acetyltransferase **97**, 199

Monoamine; L-DOPA; Dopaminergic; Luteinizing hormone; Prolactin; Testosterone **97**, 173

Monoclonal antibodies; Amoxicillin; Epitopes; Penicillin allergy **97**, 225

Movement disorders; Parkinson's disease; Heavy metals; Iron; Manganese **97**, 3

***N*-Acetyltransferase activity**; Parathion; Pineal gland; Indolamines; Melatonin; β-Adrenergic receptor **97**, 183

Natural killer cells; Nickel salts; Nickel immunotoxicity; Human immune cells; Immunophenotype **97**, 39

Neurobehavioral-cognitive performance; Lead; Young children **97**, 11

Neurotoxicity; Heavy metals; Lead poisoning; DHP-receptors; Calcium channels; ^{3}H-PN200-110 **97**, 113

Neutrophilia; Trifluoromethylaniline derivatives; Methaemoglobinemia; CFU-C; Lymphocytosis **97**, 123

Nickel immunotoxicity; Nickel salts; Human immune cells; Immunophenotype; Natural killer cells **97**, 39

Nickel salts; Nickel immunotoxicity; Human immune cells; Immunophenotype; Natural killer cells **97**, 39

Nutritional deficiency; Metallothionein; Metal absorption **97**, 71

Osteoclast; Lead; Bone resorption; Prostaglandin E_2; Calcitonin; Hydroxyproline **97**, 191

Parathion; Pineal gland; Indolamines; Melatonin; *N*-Acetyltransferase activity; β-Adrenergic receptor **97**, 183

Parkinson's disease; Heavy metals; Iron; Manganese; Movement disorders **97**, 3

Penicillin allergy; Amoxicillin; Monoclonal antibodies; Epitopes **97**, 225

PEPCK; TCDD; Subchronic toxicity; TdO; EROD; Tryptophan; Serum TT4 **97**, 133

Perfused rat heart; Atropine; Cardiotoxicity; Electrocardiography; Emetine; Fructose-1,6-bisphosphate; ICRF-187; In vitro; Lactate dehydrogenase **97**, 93

Peroxisome proliferators; Trichloroacetate; Dichloroacetate; Lipid peroxidation **97**, 59

Pineal gland; Parathion; Indolamines; Melatonin; *N*-Acetyltransferase activity; β-Adrenergic receptor **97**, 183

Prolactin; L-DOPA; Dopaminergic; Monoamine; Luteinizing hormone; Testosterone **97**, 173

Prostaglandin E_2; Lead; Bone resorption; Osteoclast; Calcitonin; Hydroxyproline **97**, 191

Protein kinase C; Calpain; BHT **97**, 141

Renal damage; Gold sodium thiomalate; Adjuvant arthritis; Chelate effect **97**, 151

Serum TT4; TCDD; Subchronic toxicity; PEPCK; TdO; EROD; Tryptophan **97**, 133

Subchronic toxicity; TCDD; PEPCK; TdO; EROD; Tryptophan; Serum TT4 **97**, 133

Succimer; DMSA; DMPS; Heavy metal antidotes; Dental

amalgam; Mercury antidote; Dimaval; Dental personnel; Mercury exposure **97**, 23

TCDD; Subchronic toxicity; PEPCK; TdO; EROD; Tryptophan; Serum TT4 **97**, 133

TdO; TCDD; Subchronic toxicity; PEPCK; EROD; Tryptophan; Serum TT4 **97**, 133

Testosterone; L-DOPA; Dopaminergic; Monoamine; Luteinizing hormone; Prolactin **97**, 173

2,3,7,8-Tetrachlorodibenzo-*p*-dioxin; Lymphocyte; Corticosterone **97**, 105

Trichloroacetate; Dichloroacetate; Peroxisome proliferators; Lipid peroxidation **97**, 59

Trifluoromethylaniline derivatives; Methaemoglobinemia; CFU-C; Neutrophilia; Lymphocytosis **97**, 123

Tryptophan; TCDD; Subchronic toxicity; PEPCK; TdO; EROD; Serum TT4 **97**, 133

Wilson disease; Copper; LEC rat; Metallothionein; Copper toxicity; Hepatitis; HPLC-ICP; Iron **97**, 81

Young children; Lead; Neurobehavioral-cognitive performance **97**, 11
